

# PALAIS BERG

The brand-new event venue in a first-class location with outstanding facilities

The flexible event venue, which is divided into two halls of different sizes, is equipped with extremely high-quality sound and lighting systems as well as an approx. 8m<sup>2</sup> LED video wall and several Projection surfaces and creates the perfect location for every type of event.

Whether gala dinner, business event, ball, wedding, conference or trade fair - the Palais Berg offers a unique backdrop for every occasion. The Lothringen Hall (380m<sup>2</sup>) and the Pestalozzi Hall (100m<sup>2</sup>) captivate with their unique futuristic design components as well as their unusual and unique ambience. Depending on the size of the event, the Lothringen Hall can also be separated or extended to 480m<sup>2</sup> (+ Pestalozzi Hall).

Further highlights of the event location are the light-flooded reception area and an additional, separable meeting room (150m<sup>2</sup>) with daylight and its own buffet area.

The location will be realised with the team of architects Söhne & Partner, who are known for their innovative spatial concepts, and a brand new venue will be created directly at Schwarzenbergplatz No. 3.

In addition, the Palais Berg offers extensive design possibilities as well as cooperation with reliable partners (catering, technology, etc.). In addition, a variety of equipment options (bar elements, gala tables, design elements) can be used to meet individual requirements and wishes.
